ROTARY SPOT PADS

Small soft foam M14 spot pads, perfect for working smaller areas and in tight spaces.

XB100

XB100

Mini sized rotary backer ideal for supporting spot foam or wool pads for working small and difficult to reach areas. Micro Velcro® for better grip.

- ø25mm
- M14 Thread
- Soft foam layer
- Micro Velcro®
- Max RPM: 20,000

XB200

Small 50mm pad for smaller areas or tight spaces. Micro Velcro® for increased heat resistance.

- ø50mm
- M14 Thread
- Soft foam layer
- Micro Velcro®
- Max RPM: 20,000

XB200

EX000

80mm extension arm to create longer working distance with any M14 pad. Ideal for bumpers, spoilers and other tricky areas.

- 80mm
- M14 Thread
- Solid Steel construction
- Notched design for easier removal
- Stackable for extra reach

Note: This extension arm is designed for smaller pads; larger backers can cause instability and make the machine hard to control.

EX000

MORE ORANGE ROLLOUT:

36299

75mm, 6mm Spindle

36140

125mm, M14

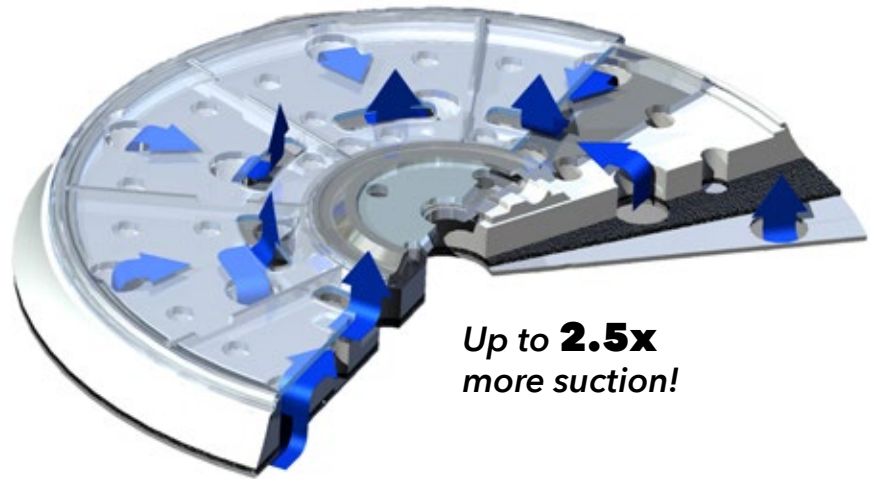

AP001

125mm, M14

CYCLONE™ PADS

The ultimate in dust extraction; this pad uses a cyclone effect through a hollow upper chamber, to optimise the suction of every hole.

- Ultra tough micro cellular foam
- Ultra sonic welded construction
- 2 Densities

Up to **2.5x**
more suction!

FE621

FE621

Cyclone™ 21H **Medium**

- ø150mm
- 21 holes
- 5/16 + M8
- 10mm Medium Density
- Mushroom Velcro® great with mesh abrasives.

FE622

Cyclone™ 21H **Hard**

- ø150mm
- 21 Holes
- 5/16 + M8
- 10mm Hard Density
- Mushroom Velcro® great with mesh abrasives.

FE622

FE624

FE624

Cyclone™ 21H **Medium** Micro Velcro®

- ø150mm
